

ICE Manual of Construction Materials: Metals and alloys

ICE Manuals

Wei Sha

About the Book

This book is a specially published section of the larger work *ICE Manual of Construction Materials*, an invaluable resource for practising civil and structural engineers in consulting firms, government agencies, research institutes, universities and colleges. Its highly practical approach will guide and train readers towards achieving expertise in the use of major and emerging construction materials.

Edited by Wei Sha, the Metals and Alloys section of the two-volume manual covers: the nature and behaviour of alloys; ferrous metals; aluminium; copper; zinc; titanium; and structural steel.

Format: Paperback

Pagination: 120
