

CESMM4 Carbon & Price Book 2013

Institute of Civil Engineers (corporate)

About the Book

CESMM4 Carbon and Price Book has been compiled using the very latest update of the Civil Engineering Standard Method of Measurement (CESMM4). The Price Book incorporates the newest technologies without the limitations of the form of contract or the National Standards. *CESMM4* updates are reflected throughout each section within the Price Book. Additionally the extent, depth and layout of vital information within the publication ensures that you can quickly and confidently achieve rapid responses to estimate requests, accurate replies to tender submissions and efficient contract administration. The continuation of embodied carbon values provides an important understanding of the carbon cost of your projects, allowing you to compile tenders with a genuinely competitive edge and realistically assess the carbon impact of your standard working practices.

CESMM4 Carbon and Price Book remains the most up-to-date source of price information available for the Civil Engineering Industry.
