

Research in the History of Economic Thought and Methodology

Research in the History of Economic Thought and Methodology

Warren J. Samuels
Jeff E. Biddle

About the Book

This annual volume includes papers on: Edwin Cannan, economic theory and the history of economic thought; Gardiner C. Means, the relation of his administered price hypothesis to neoclassical price theory; Alfred Marshall's approach to economics differed from later neoclassical economics; and notes taken by Victor E. Smith from lectures by William Jaffe on Alfred Marshall. Review essays on a variety of topics is included: the quantity theory of money; the Ricardian epistemological tradition; the history of corporate finance; economics and anthropology; Joseph A. Schumpeter; economic dynamics; economics and ethics; the history of time series analysis in economics; and Alfred Marshall's correspondence.
