

Research in Public Administration

Research in Public Administration

Jay D. White
James L. Perry

About the Book

The papers in this volume focus on the broad issues of public sector reform. They address issue-oriented and comparative research such as: analysis of civil service systems at the theoretical level; reforming the wing of national level governments; the wave of public sector reform that has swept the West over the past fifteen years; a comparison of two recent programs to improve efficiency and legitimacy of government in the US and the Netherlands; the problems of insufficient capacity in managing the public sector; the impediments in the current system of public sector job evaluation in the US; the shortcomings in managerial capacities that currently trouble the European Union; Nicaragua and its struggle for public sector reform; the history of Egyptian civil service; and the development of the Argentine civil service.
