

Research in Public Administration

Research in Public Administration

Jay D. White

About the Book

This volume clearly demonstrates the diversity of our field. Twenty-two scholars have contributed thirteen unique pieces of research on a wide variety of topics including public management innovation; organizational learning; revenue forecasting; finance; qualitative research and research methods; intergovernmental relations; training and management information systems; bureaucratic responsibility; citizen participation; political influence of the bureaucracy; critiques of policy making; public administration research. This collection makes a rich contribution of knowledge to our field.
