

The Future of Library Space

Advances in Library Administration and Organization

Samantha Schmehl Hines
Kathryn Moore Crowe

About the Book

Libraries are dealing with unprecedented changes on several fronts: technological developments, funding difficulties, and an increasing need to prove themselves to a demanding population. These factors understandably impact physical library space. Looking toward the future, what changes can we expect to see in how libraries use space. This volume of *Advances in Library Administration and Organization (ALAO)* will focus on the future of library spaces. ALAO offers long-form research, comprehensive discussions of theoretical developments, and in-depth accounts of evidence-based practice library administration and organization. The series aims to answer the questions "How have libraries been managed and how should they be managed?" It goes beyond a platform for the sharing of research to provide a venue for dialogue across issues, in a way that traditional peer reviewed journals cannot. Through this series practitioners can glean new approaches in challenging times and collaborate on the exploration of scholarly solutions to professional quandaries.
